

Quiz I - September 14th, 2023

Number: _____ Name: _____

The quiz must be answered without the help of any written materials (or the colleague in the next seat...). Don't forget to fill in your name. You have 15 min. to finish the quiz. And, yes, the quiz adds up to 6. This will be normalized to 0-20. Good luck!

1. **[2.0]** Give an **example scenario** of task abstraction and **explain its usefulness**.
2. **[2.0]** Why is it important to try out your visualization with real data as soon as possible?
3. **[2.0]** Imagine that you want to display the evolution of global COVID cases over the years. Explain **which idiom** would you choose and **why** and draw an example.
